Assessing Young Children, 5/e by Mindes and Yung is the ideal resource for pre- and in-service teachers with a need to understand the broad range of assessment issues in early childhood and to deliver an effective educational program for all young children from birth through age eight. Grounded in research-based and recommended practices, it prepares teachers to assess young children in a variety of settings, including inclusive environments, blending early childhood and early childhood special education. Students learn about assessment practices from observation to the complexities of referring children for special education or early intervention evaluation. The focus throughout is on working with interdisciplinary teams to serve a diverse population of children. The new Fifth Edition features a “Cultural Connections” section in each chapter clarifying applications of the topic with children from diverse cultural backgrounds. Particular attention is paid to English learners.
