National Construction Estimator 2015 Richard Pray

The 63rd Annual Edition of the National Construction Estimator provides users with a wide range of current building costs for residential, commercial, and industrial construction. The invaluable resource enables you to provide more accurate estimates, and covers costs for a large range of different building materials, manhours, recommended crew, labor costs for installation. The manual also comes with a software download that contains an electronic version of the book, and also National Estimator, a stand-alone Windows estimating program that enables you to calculate estimates quicker than ever. The download also includes a multimedia video that shows how to use the software to compile construction cost estimates. This book lists costs of practically every type of building material available today and the installation costs of those materials - along with the manhours and recommended crew sizes to complete each job. This is the perfect book for estimating the costs of new construction in residential, commercial, or industrial construction.
