World Bank

Financial Sector Assessment: A Handbook World Bank

In the wake of the financial crises of the late 1990s, there was a surge of interest in the systematic assessment of financial sectors, with a view to identifying vulnerabilities and evaluating the sector's developmental needs. Consequently, there has been an increased demand from financial sector authorities in many countries for information on key issues and sound practices in the assessment of financial systems and the appropriate design of policy responses. In response, Financial Sector Assessments presents a general analytical framework and broad guidance on approaches, methodologies and key techniques for assessing the stability and development needs of financial systems. It synthesizes current global sound practices in financial sector assessment.
