Human Happiness and Morality: A Brief Introduction to Ethics Robert F. Almeder

Philosopher Robert Almeder provides lucid explanations of the major ethical theories and traditions, and looks at the answers to three basic questions: What makes a right act right? Why should I be moral? What is human happiness and how do I attain it? The author first discusses consequentialist and deontological theories, admitting that "we face daunting difficulties" when trying to decide what makes an act right or wrong. He then imparts a clear understanding of what is needed for happiness and the place of traditional morality in that pursuit. In closing, the author details simple Stoic rules for happy living and shows how to live a good life despite the existence of unhappiness and failure in others.
