## **IT Governance in a Networked World: Multi-Sourcing Strategies and Social Capital for Corporate Computing (Premier Reference Source)** Laurence Lock Lee

The outsourcing of IT services over the past decade has triggered a need to reassess how IT governance and sourcing should be conducted.

**IT Governance in a Networked World: Multi-Sourcing Strategies and Social Capital for Corporate Computing** provides theories concerning corporate social capital, intellectual capital, and social networks for academicians, practitioners, and field researchers. This book addresses relationship challenges in a world that is becoming increasingly networked, offering useful frameworks and practices for IT governance.
