## **How to Build a Computer 2014-15: Learn, Select Parts, Assemble, and Install: A Step by Step Guide to Your First Homebuilt** Jacob Beckerman

Learn how to build your own custom computer in simple steps. From gaming PCs, to media centres, to workstations, you will find the steps and advice needed in this book. It's intended for the complete beginner; no knowledge of computers is assumed. By following the steps in this guide you will build a cheaper, better quality, and faster PC than anywhere else.

## **Chapters and descriptions:**

- **What you need to know:** outlining the foundations of a successful computer.
- **Subsystems of a Computer:** in detail, describing the interactions and function of each part of a computer (e.g. the CPU, the motherboard). Informs the reader of what to look for when buying each specific component, including advice on the best manufacturers and retailers.
- **Cataloging and Purchasing the Parts:** how to organize your build and find the best deals. All about warranties, websites to look for advice, and how to avoid the crucial problem of bottlenecking.
- **Assembling the System:** how to properly handle the parts to avoid damaging them; including how to prevent static discharge and pin breaking. Features a detailed, illustrated step-by-step guide on assembling your computer.
- **The First Boot:** how to boot your computer for the first time and verify that everything is operational. A section on troubleshooting details how to fix your computer if it doesn't work, including a reference on beep codes and POST analysis.
- **Installing Software:** install Windows 8, or another operating system. How to get the up-to-date drivers and software. An introduction to over-clocking: how to speed up your computer without spending a dime.
- **Maintenance:** tips on how to keep your hardware clean and running like new, including cleaning and disk defragmentation.

By reading this slim volume, you will become an expert on computer building. This all-in-one guide is the only resource you will need. Save time, money, and eliminate frustration by reading this book!
