Time-Frequency Signal Analysis With Applications (Artech House Radar) Ljubisa Stankovic, Milos Dakovic, Thayananthan Thayaparan

The culmination of more than twenty years of research, this authoritative resource provides a practical understanding of time-frequency signal analysis. The book offers in-depth coverage of critical concepts and principles, along with discussions on key applications that are of great interest to engineers and researchers involved in a wide range of signal processing work, from communications and optics...to radar and biomedicine. Supported with over 140 illustrations and more than 1,700 equations, this detailed reference explores the topics professionals need to understand, such as Fourier analysis, linear time frequency representations, quadratic time-frequency distributions, higher order time-frequency representations, and analysis of non-stationary noisy signals. This unique book also serves as an excellent text for courses in this area, featuring numerous examples and problems at the end of each chapter. It is suitable for electrical engineers and researchers whose work involves signal processing and radar signal processing, as well as graduate students in related courses.

From reader reviews:

Ross Larson:

This Time-Frequency Signal Analysis With Applications (Artech House Radar) book is just not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book is information inside this reserve incredible fresh, you will get information which is getting deeper anyone read a lot of information you will get. This particular Time-Frequency Signal Analysis With Applications (Artech House Radar) without we recognize teach the one who examining it become critical in pondering and analyzing. Don't always be worry Time-Frequency Signal Analysis With Applications (Artech House Radar) can bring once you are and not make your bag space or bookshelves' turn out to be full because you can have it within your lovely laptop even cell phone. This Time-Frequency Signal Analysis With Applications (Artech House Radar) having great arrangement in word and layout, so you will not feel uninterested in reading.

Adelina Thompson:

Now a day individuals who Living in the era exactly where everything reachable by talk with the internet and the resources inside can be true or not involve people to be aware of each info they get. How individuals to be smart in having any information nowadays? Of course the correct answer is reading a book. Studying a book can help people out of this uncertainty Information especially this Time-Frequency Signal Analysis With Applications (Artech House Radar) book as this book offers you rich data and knowledge. Of course the info in this book hundred pct guarantees there is no doubt in it as you know.

Herman Hernandez:

Nowadays reading books are more than want or need but also get a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the rest of the information inside the book that will improve your knowledge and information. The knowledge you get based on what kind of book you read, if you want drive more knowledge just go with knowledge books but if you want feel happy read one together with theme for entertaining such as comic or novel. Typically the Time-Frequency Signal Analysis With Applications (Artech House Radar) is kind of guide which is giving the reader erratic experience.

William Ochoa:

The particular book Time-Frequency Signal Analysis With Applications (Artech House Radar) has a lot of information on it. So when you check out this book you can get a lot of help. The book was authored by the very famous author. This articles author makes some research before write this book. This book very easy to read you can get the point easily after scanning this book.
