One of the most fascinating and interesting ancient texts is the Book of Genesis. The entire Bible rests on its foundation because it forms part of all subsequent inspiration. Genesis is the true account of Divine creative actions and a book of origins of the universe, life and man. It's not myth or the corruption of primitive truth handed down by tradition, but rather the authentic record of fallen angels and giants. Genesis is shrouded in mystery and belongs to the age of pyramids and other great wonders of the world. It is the epoch of a world once destroyed by God's judgment, later recreated, and then again destroyed by a worldwide flood. Genesis provides evidence matching the information found in tales, folklore, and traditions of many cultures around the world. Genesis tells us of a race of Nephilim (giants that were fathered by the Watchers). Strangely and interestingly for our generations, the Lord declares that this conspiracy of evil is to be repeated before His return. Consequently, it is important from the standpoint of both understanding history and our future that we understand the events of Genesis. In this book, the author draws back the curtain concealing some of life's greatest mysteries. He endeavors to place man in his cosmic setting, shows his particular uniqueness, and begins to trace the flow of Divine revelation through space and time. This analysis offers clear and concise answers to every major dilemma within Genesis while staunchly defending the authority of Scripture. It's also a clear exposition of Scripture and has excellent readability. A storm is gathering which will lead to the end of the world as we know it. This culmination will be so terrifying that fear alone will one day cause men's hearts to fail them. We must not approach this coming apocalypse unaware or unarmed. Surprisingly the secrets and clues for our survival are found in Genesis!
