(from back cover) "The best novel about cloning written to date... destined to be a science-fiction classic." - Locus When the first warm breeze of Doomsday came wafting over the Shenandoah Valley, the Summers were ready. Using their enormous wealth, the family had forged an isolated post-holocaust citadel. Their descendants would have everything they needed to raise food and do the scientific research necessary for survival. But the family was soon plagued by sterility, and the creation of clones offered the only answer. And that final pocket of human civilization lost the very human spirit it was meant to preserve as man and mannequin turned on one another! "Engrossing holocaust narrative... rich in characterization, science and ideas." -Chicago Daily News
