## **The Nature of an Ancient Maya City: Resources, Interaction, and Power at Blue Creek, Belize (Caribbean Archaeology and Ethnohistory)** Dr. Thomas H. Guderjan

This work is a comprehensive study of a unique Maya site offering the full range of undisturbed architectural features. was a Maya community that became an economic and political center that included some 15,000-20,000 people at its height. Fairly well protected from human destruction, the site offers the full range of city components including monumental ceremonial structures, elite and non-elite residences, ditched agricultural fields, and residential clusters just outside the core. intensively investigated Blue Creek in an integrated study of the dynamic structure and functional inter-relationships among the parts of a single Maya city.

Documented in coverage by National Geographic, Archaeology magazine, and a documentary film aired on the Discovery Channel, Blue Creek is recognized as a unique site offering the full range of undisturbed architectural construction to reveal the mosaic that was the ancient city.
