ENTERPRISE ARCHITECTURES AND DIGITAL ADMINISTRATION: PLANNING, DESIGN, AND ASSESSMENT Ambrose Goikoetxea

This is the first book that addresses all three main activities in improving business and technology decisions: the planning, design and assessment of enterprise architectures (Eas). Emphasis is on medium and large-size organizations in the private sector (such as banks, airlines and auto industries) and the public sector (such as federal agencies, local government organizations and military services in the Department of Defense). The book addresses the challenges faced by Ea builders through an organized presentation of the issues and a step-by-step approach. The material is based on real-life Ea project experience and lessons learned over a decade working in multiple-contractor, multiple-discipline teams, and multiple-agency environments.
