**Safety, Health, and Environment for Process Technicians** Charles E. Thomas

Safety, Health, and Environmental Concepts for the Process Industry is an all-new, comprehensive textbook for students in process technology programs and it is a valuable reference for process plant operators. This text has been designed to parallel the objectives developed by the Center for the Advancement of Process Technology (CAPT). The topics are explained in detail and in an easy-to-read style. Each chapter begins with chapter objectives and ends with review questions. The text is highly illustrated. There is a complete glossary of terms and a list of additional references in the back of the book.
