## **On Jung** Anthony Stevens

Here Anthony Stevens examines every stage of Jung's personal and professional development to throw light on his theories of the life cycle, dream symbolism, and the collective unconscious. Jung's life experience made him a profound, stimulating, and immensely influential writer on almost every aspect of human behavior; this lucid and penetrating study makes the ideal introduction to his life and ideas. This new edition contains a preface intended as a rebuttal to the recent attacks on Jung made by Noll and McLynn.
