## Discover the most powerful, yet simple tool for revealing happiness from within

A personal mission statement is the most powerful tool you can develop in your life. By identifying your single motivating purpose and incorporating it into your philosophy, you will have the tools to achieve happiness and success on a daily basis. This book was written to teach you what a personal mission statement is, how to create one and, if you already have one, how to use it effectively.

## Create your own personal compass for life's adventures!

A personal mission statement is a compass to guide your life. Though the terrain of life can change rapidly, using this compass will ensure you always find your way back home to happiness and success.

## Am I an expert in this field?

I may not have letters like Ph.D. after my name, but I have discovered the secrets of creating personal mission statements, and the amazing power they have to change lives. I have made my own and use it daily. But, don't take my word for it, see what this reader had to say: "*You convinced me to review, rewrite and resume my Personal Mission Statement. Michal, I don't know how to thank you. You have given me so much....now to do it. May you be blessed with much more!*" - Nina Malinda, Malaysia

## Knowledge is great, but success requires action!

There are plenty of resources available online with advice on creating a personal mission statement. In today's world we are overloaded with information, what we need is motivation to actually implement the knowledge we've gained. My book not only shares the "why," but also the "how." Another benefit of my book is that it includes the story of my personal struggle in crafting my own mission statement, offering encouragement as you create your own.
