Occupational Therapy Fieldwork Survival Guide: A Student Planner Bonnie Napier

The transition from academic work to a clinical focus that occurs during Level II fieldwork can be both exciting and challenging. This combination handbook and self-organizer contains a review of a variety of topics such as time management, teamwork, and occupational therapy practice issues as they relate to fieldwork success.

Readers can keep track of schedules; note meetings and other must-dos; record journal entries and reflections; organize questions to ask supervisors; record suggestions and comments from supervisors; record important information about each fieldwork site; organize materials and resources; and write goals, action plans, and timelines for completion.

In addition, the "Talk It Over With Your Clinical Supervisors" sections suggest useful questions to ask about each of the topics discussed in the book.

This book can provide students with an organizational tool to help make the transition smoothly during the fieldwork experience.
