## Core Topics in Neuroanaesthesia and Neurointensive Care

Core Topics in Neuroanaesthesia and Neurointensive Care is an authoritative and practical clinical text that offers clear diagnostic and management guidance for a wide range of neuroanaesthesia and neurocritical care problems. With coverage of every aspect of the discipline by outstanding world experts, this should be the first book to which practitioners turn for easily accessible and definitive advice. Initial sections cover relevant anatomy, physiology and pharmacology, intraoperative and critical care monitoring and neuroimaging. These are followed by detailed sections covering all aspects of neuroanaesthesia and neurointensive care in both adult and paediatric patients. The final chapter discusses ethical and legal issues. Each chapter delivers a state-of-the-art review of clinical practice, including outcome data when available. Enhanced throughout with numerous clinical photographs and line drawings, this practical and accessible text is key reading for trainee and consultant anaesthetists and critical care specialists.
