The Final Battalion The 55 Club

There have been many books written about the subject of National Socialist Germany and their advanced technologies concerning flying discs or perhaps better known as U.F.O.'s. Today, there is also quite a fuss about the ancient giants, 'Nephilim', etc. What most of these books do not reveal is that they quite are related. Truth be known, both of these subject matters are irreversibly connected, for they are both part of a hidden history that those who are in power would prefer for you and I to know nothing about because the real story offers hope and choices. Therefore, the enemy makes every effort to conceal these overwhelming truths. Our hope is that in this little work that covers some 20,000 years we may shed a little light on the dark dilemma that most of us intuitively feel as long back as we can remember. Many succumb and just plain give up because it seems so much easier, but then there are those who do not. The great souls that please God are those who never give up even though they believe that there is no chance of winning. They continue to struggle only because they feel it the right thing to do and it is to them that the hope written of in this work is given. So, the question is what are we going to do about it? Is one content with being a blind slave looking for the next distraction or an awakening Hero of God? Only our actions in time will tell.
