## **INFERTILITY CURES: (Instead of Adoption) Lori Carangelo**

This unique little booklet contains extensive information about infertility -- including natural and other cures -- not found in one compilation elsewhere. It is a companion book to "THE ADOPTION AND DONOR CONCEPTION FACTBOOK," on Amazon, and is provided as a public service for information purposes only. The author is a researcher and writer, not a medical professional or scientist, but the highly regarded sources of this information are cited, alphabetically by author name, in the End Notes following this material. Consultation with a qualified physician, and nutritionist or herbalist, is recommended.

Adoption, sperm or egg donation and surrogacy, which are promoted by infertility web-sites and organizations such as RESOLVE INC, are neither cures nor treatments for infertility, and are NOT recommended. The human body is designed to heal itself with proper nutrition. Although there are no guarantees, many couples find success following the nutritional principles offered here which may avoid the heartache and great expense of failed or high risk technical, chemical and surgical treatments.
