**British-French Exchanges in the Eighteenth Century** Kathleen Hardesty Doig and Dorothy Medlin France and Great Britain, so close geographically but separated by language, culture and history, had been exchanging merchandise, visitors, rulers and ideas for hundreds of years before the eighteenth century. The flow of traffic only quickened during this period, and became a flood, in the direction of Great Britain, during the decade following the Revolution. While certain of these exchanges, such as Voltaire's sojourn abroad, have been studied in detail, others are coming into focus only as scholars study secondary figures in the host country and the interactions of various groups with its citizens. *British-French Exchanges in the Eighteenth Century* gathers together fourteen recent essays by scholars from Great Britain and the United States who have examined various parameters of the subject. Correspondences and translations are obvious forms of cultural sharing and are in play in many of the essays. Others recount and analyse the stories of persons who actually visited the other country in circumstances ranging from pure tourism to emigration to a hostage exchange. A final group of essays treats intellectual influences in realms as diverse as encyclopaedism, cultural analysis, connoisseurship, and cosmopolitanism in the arts. The volume is appropriate for collections in history, literature, and culture. **TABLE OF CONTENTS** Part I: Translations and Correspondence 1 Bernardin de Saint-Pierre's English Correspondents During the French Revolution MALCOLM COOK 2 The English Translations of Voltaire's *La Pucelle* J.
